Academic Details

- Bachelor of Technology (B.Tech.) Computer Engineering**
D.Y.Patil College of Engg. And Technology, Kolhapur
CGPA: 8.50 (2023)

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

- UI & UX Design
- Cloud Computing
- Figma
- MySQL
- Python
- Computer Networking

Core Competencies

- Agile Methodologies
- Software Development Life Cycle
- Figma Design
- Cloud Computing
- Design Thinking
- UX Research
- Adobe Illustrator
- Performance Optimization
- System Scalability

Personal Details

Date of Birth: 29th Jan 2002
Languages Known: English, Hindi and Marathi
Address: Pune, Maharashtra

Profile Summary

- Detail-oriented ETL Tester and **Informatica Support Specialist** with significant experience in data integration and Informatica PowerCenter. Proficient in Unix, SQL, SAP, and UI/UX design, contributing to streamlined data solutions and enhanced user experiences.
- Skilled in troubleshooting complex ETL workflows, optimizing system performance, and ensuring data accuracy and integrity. Adept at leveraging Informatica PowerCenter for efficient ETL processes and enhancing user interfaces through effective **UI/UX design** principles.
- Experienced in managing and enhancing data processing efficiency, reducing system downtime, and improving uptime metrics through effective monitoring and optimization techniques.
- Proficient in **cloud computing** concepts, leveraging cloud services to optimize data storage, processing, and scalability for ETL operations, contributing to efficient and cost-effective data solutions.

Work Experience

ETL Tester/Informatica Support
Vodafone Intelligent Solutions, Pune
August 2023 – Present

Responsibilities:

- Utilize Informatica PowerCenter to integrate, transform, and load data according to project requirements.
- Collaborate with stakeholders to understand project needs and deliver effective data solutions.
- Troubleshoot and resolve issues within ETL workflows, ensuring data integrity and system performance.
- Optimize data processing efficiency through effective use of Unix, SQL, and SAP tools.
- Design and implement UI/UX improvements to enhance user experience in data management interfaces.
- Generate reports and documentation to communicate project progress and outcomes effectively.
- Continuously monitor and improve system performance and reliability using cloud computing principles and services.
- Proactively identify opportunities for process improvement and contribute to team discussions for enhancing data integration strategies.

Achievements:

- Implemented and optimized ETL workflows using Informatica PowerCenter, increasing data processing efficiency and reducing system downtime.
- Designed and implemented user-centric UI/UX for a finance application, enhancing user satisfaction and engagement, and developed responsive designs for web and mobile platforms, improving mobile user retention.
- Created detailed prototypes and wireframes in Figma, streamlining the design approval process and reducing project timelines, while ensuring accessibility standards to enhance usability for all users.

Academic Projects

Finance App UI/UX for Web and Android Platforms

Tools: Figma, Adobe Illustrator
Roles: UI/UX Designer
Designed and implemented user-centric UI/UX for a finance app on web and Android platforms, focusing on responsive design, detailed prototyping, and accessibility standards. Utilized Figma to create engaging and seamless user experiences.

Cross-Account Access using IAM Role in AWS Cloud

Tools: AWS(IAM), AWS CLI, AWS Management Console, CloudFormation
Roles: Cloud Engineer
Implemented secure cross-account access in AWS using IAM roles, automating setup with AWS CLI and CloudFormation while ensuring security with CloudTrail monitoring.
